Definitely a great guide and tool for the all too busy salesman. Perspectives are important, and this book helps differentiate the difference between productive and not productive time. Try to think of it as help to lean up processes.

This is a different way to look at time management than most sales books in that it stresses balance and values. I have used this several times as a read together or book club type exercise with some of my sale reps over the years and it always is a hit. Highly recommend this book.

Dave Kahle is one of the best writers on selling skills on the country. While there have been enumerable books written on time management, this is the best one I've seen on time management techniques that are of direct and immediate value to someone in sales. Best of all, while most people read books on time management, few ever put the information to work...Dave makes it simple enough that readers are much more likely to implement his suggestions. Highly recommended!

The typical salesperson today is overwhelmed, trapped in a chaotic, pressure-filled environment with too much to do and not enough time to do it. Salespeople need help! This book provides it. Dave Kahle contends that smart time management is not about cramming more activity into each hour; but about achieving greater results in that hour. The content has been honed in hundreds of seminars and refined by the perceptions and experiences of thousands of salespeople. 10 Secrets of Time Management for Salespeople provides powerful, practical insights and ideas that really work, including hundreds of specific, practical, effective time management tips from dozens of salespeople who are on the "front lines" every day. The author, Dave Kahle, has been the number-one salesperson in the country for two different companies in two distinct industries. He's presented seminars throughout the world, published more than 400 articles, and authored three books and 32 multimedia training programs.
