Louis Goldberg : A Journey into Accounting Thought (Routledge Studies in Accounting) before purchasing it in order to gauge whether or not it would be worth my time, and all praised A Journey into Accounting Thought (Routledge Studies in Accounting):

This book explores the role of accountants in business and society. The final work of Louis Goldberg, Professor

Emeritus at the University of Melbourne, it aims to raise awareness of the existence and importance of fundamental issues that are often ignored or by-passed in contemporary discussion of accounting. The sixteen chapters assess exactly what accountants do in carrying out their work. This work will make essential reading for scholars or historians of accounting, and will also interest philosophers and practicing accountants.
