ability to lift the spirits of the whole room! I first bought this book there, and read it in one sweep! I felt so energized once I was done, it was incredible! I got it! He has such a genuine way of sharing his life, and how he turned it around for the better! This book is inspirational, motivating, makes you laugh, and probably shed a few tears... But it will undoubtedly raise your spirit, improve your life, and definitely change your attitude! I am on my third read now, and because I refuse to separate myself from it (don't you always keep your jumper cables in your car? what good are they to you if you lend them to everyone and anyone??? LOL!), I bought two more copies! Yep, you read right! One that I am routing amongst my most cherished friends (because they deserve it), and another copy that I will be giving to the owner of the company I am working for. I hope she'll see the value in this amazing book, and will get some of those basic principles applied to her company! We could all benefit from Sam's insights, and wonderful humor! The man rocks! So if you are still wondering if you should buy a copy of this book. Don't. Buy 2 right away! I guarantee you, you will love it!

Funny, Insightful, and something every parent should purchase for their teenager.
A "MUST READ" at any age for anyone who feels stalled in their career, or their life.
Sam's approach to different situations and his humorous way of phrasing things is not only uplifting but also very intuitive.
If anyone you know needs an attitude adjustment, here is a painless way to kick them right where they need it, and have them thanking you afterward!
