Steven M. Bragg : Accounting Control Best Practices before purchasing it in order to gauge whether or not it would be worth my time, and all praised Accounting Control Best Practices:

0 of 0 people found the following review helpful. Five Stars By Dany Koe The book was received in good condition. 0 of 5 people found the following review helpful. Feedback By Alejandrina Very interesting book, professional can find a lot of topics that help to make easier and productive jobs. 13 of 15 people found the following review helpful. Very Helpful By Donna L. Houck I recently became Controller for a medium-sized construction company. I found the control activities listed in the book to be a good "mind-jogging" tool as I begin documentation of our internal controls

within the accounting department.

Praise for Accounting Control Best Practices, Second Edition "A comprehensive, well-organized reference manual that is perfect for managers and auditors of public and private companies. Whether you wish to comply with the rigors of the Sarbanes-Oxley Act or take your company to the next level, Accounting Control Best Practices, Second Edition contains virtually everything you'll need to design, challenge, and improve your company's internal control environment." mdash;Matthew T. Posta, Esq., CPA "Steven Bragg continues to improve the accounting field by providing thorough, step-by-step instruction in accounting best practices. During a recent software conversion, his book was my expert guide ensuring that the previous manual controls were replaced with the now automated process. It provides practical steps for both small and large organizations." mdash;Melody TroesserDirector of Accounting ServicesCole County Residential Services, Inc. "This updated reference is a comprehensive source for those who design, implement, or evaluate controls. Guidance is focused on understanding and mitigating risks, while also acknowledging the importance of efficiency and the use of automated systems. A very worthwhile addition to our knowledge base in today's control-aware environment." mdash;Clint Davies, PrincipalBerry, Dunn, McNeil Parker
