Harold Bierman Jr : Accounting/Finance Lessons of Enron:A Case Study before purchasing it in order to gage whether or not it would be worth my time, and all praised Accounting/Finance Lessons of Enron:A Case Study:

1 of 3 people found the following review helpful. ExoneratedBy D. KahnIt did not explain (as I had hoped) the detailed structure of the extra-Enron entities that facilitated the scandalous accounting. It did not tell me anything I didn't already know.It is principally an exoneration of the villains Lay and Skilling, reserving the author's ire for their creature Fastow.

There is a great deal of confusion regarding the factors that led to Enron's collapse. This important book addresses this problem by providing a coherent explanation of the accounting and finance problems associated with the collapse. The

Skilling-Lay trial, as it is related to accounting or finance issues, is critically described as well. Through its well-balanced take on events surrounding the trial, the book therefore enables readers to analyze the validity of the arguments offered by the U.S. attorneys.

Contents: The Enron Success and Failure
Enron as of 31 December 2000
