Tom Taulli : All About Commodities (All About Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised All About Commodities (All About Series):

1 of 1 people found the following review helpful. Not for etf home investorsBy Shawn SicMostly outdated for the ETF age. If you are a small investor this is ok but really is aimed at investors that can buy 25,000 dollar contracts, muh of the info is outdated for a buy from home etf or mutual fund investor.0 of 0 people found the following review helpful. Two StarsBy Kenneth K. WiggsOK2 of 3 people found the following review helpful. I thought I knew more....By Don

BowlinThe book is well written for someone like me who knew enough to be interested but not enough to take action. Just as I would find myself thinking "what?" The author seemed to explain the situation in the following pages.

GENERATE BIG PROFITS WITH TODAY'S HOT TEST COMMODITIES! During the average trading day, trillions of dollars' worth of commodities change hands. If you want to snatch some profits from this booming market, you first need to understand all the fundamentals—and All About Commodities is the place to go. Without the confusing jargon and complex language of other investing guides, this book uses simple language to explain what drives price fluctuations of commodities—from energy, industrial metals, and mines to livestock, agriculture, and precious metals—and how to design a powerful, reliable strategy for profiting from them. Learn everything there is to know about: Using futures and options to enter the commodities market Risks unique to commodities trading—and how to manage them Ways to identify important patterns to steer your investing decisions The benefits and disadvantages of commodity funds
