Scott Frush : All About Exchange-Traded Funds (All About Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised All About Exchange-Traded Funds (All About Series):

0 of 0 people found the following review helpful. InformativeBy JoshRVery informative book, best in depth ETF starter I have found. I picked this up amongst many investing books. This book is targeted learning specific to ETF's. As ETF's grow, I recommend this as a starting point to discover the ETF guidelines, history and options.1 of 1 people

found the following review helpful. Quite useless book By Sergey Not informative at all, most of the information is diluted and can be fit in less than 50 pages without any loss. You may read few articles on Internet and will get similar results.

All About Exchange-Traded Funds covers all aspects of investing in and trading ETFs. It begins with an overview of the history of ETFs and moves on to important-to-know topics, such as regulatory essentials, the benchmarks and strategies that ETFs track, valuation, and ways to actively manage a portfolio of ETFs.
