employees and made a significant impact in their lives and mine. It is now mandatory reading for all of my managers. 1 of 1 people found the following review helpful. Positively Inspired By Carol H. Seyller I read this book on direction of a coach in a new field I am choosing to pursue. At 55 years old the thought of starting a new reality is somewhat daunting. If that's what I thought, it surely is what I was going to encounter. Sometimes you just have to be open to seeing the same thing in a different way. Dumping my box and starting today. After all yesterday is a wrap. I will be sending this in hard copy to my son. He is handsome and charming. He is also in prison. I am hopeful that he will also dump his box. 2 of 2 people found the following review helpful. The book about visualization that actually worked for me By Fernando Labastida This is exactly what I needed at exactly the right time. I've ready many other books that explain the power of visualization, a daily quiet morning ritual, consistency, and taking action. But Weldon Long's book hit me where I was getting caught up - in the regularity of the habit, the consistency, and more powerfully, the power of looking only at one or two next steps at a time. As Long says "the confused mind says 'no!'". One other thing that is hugely empowering to me is Long's history. His journey from prison after being convicted of three felonies to the success he is today seems to be nothing short of a miracle - except it isn't. Long consistently put into practice what he prescribes in his book, changing his mindset (the contents of his "box) in the process. If a "three time loser," as Long used to refer to himself, can do it, then so can I - so can anyone.

How to achieve wealth, happiness, and peace of mind through personal responsibility The Power of Consistency is based on the fundamental premise that private declarations dictate future actions. In other words, we tend to take actions with the thoughts and beliefs we consistently have, and the cumulative results of those actions eventually create the quality and circumstances of our lives and businesses. Therefore, transformative change in life and business is possible when we reconstruct our minds and take responsibility for its content. Lays out a simple process; the Personal Prosperity Plan; to create powerful results in your life and business Explains the power of focus and your subconscious mind Outlines a four step process: focus, emotional connection, action, responsibility The Power of Consistency teaches you how to create a Personal Prosperity Plan, get deeply emotionally committed to the plan, and take consistent action toward implementing the plan for improved sales and business performance.

From the Inside Flap It's easy to blame failures on external circumstances. But the fact of life is, bad things happen to good people. The most successful people didn't get where they are by miraculously avoiding every obstacle in life. They succeeded by mastering a Prosperity Mindset that prepared them to overcome challenges and thrive in the face of adversity; consistently.
