to cover, especially one that is over 500 pages long! But I read this one! It is packed with wonderful information, and has helped me in many ways. The only reason I give it 4 stars and not 5 is that I felt like the author was advertising his programs, products, services, and other books all throughout the book, which I think is fine to an extent....I just thought it was a bit much. Other than that, the content is fabulous and I have already seen results from applying The Success Principles to my life! 20 stars for content and how to apply it! 1 of 1 people found the following review helpful. Take Jack Canfield at His Word! By Jane J. I have had the pleasure of hearing Jack Canfield speak, and I have had the honor of spending personal one-on-one time with him. He is a down-to-earth and unassuming human being who is willing to help his fellow man (and woman). And this comes through in this book. I highly recommend this book to anyone and everyone! Read it and garner the wisdom that will help you to become a success in your chosen field, but more importantly, become a success as a human being. 0 of 0 people found the following review helpful. Great Book! By N. Furgason I love reading books with a positive message and many of these principles I agree with and utilize in my everyday. Somewhere along the line you get comfortable and you forget to kick yourself in the butt and start moving again. This book is helping me do just that.
