Dobbs tells the truth: Politicians, Lobbyist and Others don't want people to believe him to this day!By John VanWieWhile it was released in 2007, it addressed many issues that are now worse and still need to be addressed, such as 8000+ lobbyist (including international) buying and making politicians (names may be different but that's all) wealthy through behind the scene funding activities, because they have access to TRILLIONS of middle class taxpayer dollars and jobs. The lack of many quality teachers in the U.S. Educational Systems (grade high school college professors) needs to change, plus many other problem areas which have only worsened since 2007 AND NEED TO BE STOPPED AND CHANGED ASAP!!!. It's truly worth listening to what Lou Dobbs says the U.S. issues were and sadly still are. To date, only State, Federal Politicians, Foreign Entities and Rich have won and the middle class and poor Americans have greatly lost, which Dobbs made clear in 2007 and too many people ignored. Having worked in both the private and political sectors, for 40 years, I witnessed what Dobbs disclosed. Positive change is long overdue!!!0 of 0 people found the following review helpful. Rich The Poor!!By Joe RobIt is true...We are going back to a time in history were there were two classes: Rich The Poor!!0 of 0 people found the following review helpful. Facts for AmericaBy CustomerExcellent book, the facts are astounding. All of America should be made aware of this book..

Lou Dobbs's bestselling exposeacute; of the silent assault on the living standards of ordinary Americans Millions of TV viewers have known Lou Dobbs for years as the Walter Cronkite of economics coverage, and now the anchor has become the preeminent champion of the common man and the good of the national interest, who tells uncomfortable truths in a voice that can't be ignored. In this incendiary book, he presents a frontline report on the betrayal of America's middle class by interests that range from rapacious corporations to an out-of-touch political elite. The result is not only lost jobs but also dysfunctional schools and unaffordable health care. But War on the Middle Class also outlines a bold program for change. As essential as it is infuriating, this book furnishes the talking points for the national debate on income and class.
