The vast majority of people start their working lives with energy, passion and are optimistic about a future they expect will be rich and rewarding. However, only 5 percent of people experience financial independence and only 1 percent become wealthy. What went wrong for the 95 percent club? How did they become trapped on life's "financial treadmill" struggling to pay their monthly bills and/or finance their debt? Why after a lifetime of work will they retire dependent on the government, family and friends just to get by? *Wealth Buys Freedom* outlines clearly and concisely the process wealthy people have been using for generations to ensure their financial future. It guides the reader through a logical, step-by-step process that examines the four components of the wealth creation formula: Wealth mindset Wealth Knowledge Wealth Planning Wealth action *Wealth Buys Freedom* will greatly benefit all those who seek a solid foundation and clear structure from which to begin and rapidly grow their wealth-building program. *Wealth Buys Freedom* is not a get-rich-quick system, but, rather, a clear and comprehensive book that presents the tried and tested methods of wealth creation in practical steps that can be applied whatever your current circumstances.
