**From Oxford University Press : Weighing Reasons** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Weighing Reasons:

In recent decades normative reasons-considerations that count in favor of one thing or another-have come to the theoretical fore in ethics and epistemology. A major attraction of normative reasons is that they have weight or strength. Reasons are particular considerations that count in favor of actions or attitudes to some degree. This feature is

attractive to theorists who want to explain more complex normative phenomena in terms of a notion that is weighted. This volume aims to provide the beginnings for a theory of weight. The fourteen new essays fall into three groups. One set of essays addresses questions about the nature of weight. Topics include the relations between reasons and conditions and modifiers, between reasons and other weighted notions such as commitments, and different models of the interaction of reasons. A second set of essays addresses substantive questions: questions about weight relevant to value-first, desire-first, evidence-first and other normative research programs. A third set of essays applies issues in the theory of weight to broader ethical debates. The book thus not only makes novel contributions to debates in ethics and epistemology about the nature of normative reasons and their weight, it also makes a strong case for the theoretical fruitfulness of the ideology of normative reasons.

"Weighing Reasons is a refreshing collection...All too often volumes of this type contain very little new work and so are sometimes a little bit stale. They tend to be on already much-debated topics and their famous contributors rarely venture outside their well-known views. This anthology, in contrast, is on a relatively unexplored topic, and its editors and many of its authors belong to a stellar younger generation of philosophers." -- Notre Dame Philosophical Studies Online

About the Author  
Errol Lord is an Assistant Professor of Philosophy at the University of Pennsylvania. He works on ethical theory, epistemology, philosophy of action, and aesthetics. He has published papers in these areas in *Oxford Studies in Metaethics*, *Philosophical Studies*, *The Philosophical Quarterly*, and *Australasian Journal of Philosophy*, among other places.  
Barry Maguire is a Research Assistant Professor in Philosophy at The University of North Carolina at Chapel Hill and a Core Faculty Member in the joint UNC/Duke program in Politics, Philosophy, Economics. He was previously a Bersoff Assistant Professor and Faculty Fellow in Philosophy at New York University. He works in ethical theory, epistemology, political philosophy, and metaphysics.
