Rajeev Agarwal : What I Did Not Learn At IIT: Transitioning from Campus to Workplace before purchasing it in order to gage whether or not it would be worth my time, and all praised What I Did Not Learn At IIT: Transitioning from Campus to Workplace:

1 of 1 people found the following review helpful. Fantastic Book for fresh graduatesBy Krishna Kumar JhaThis book is based on practical experience of the writer and he had written this book from the bottom of his heart. Certainly if you follow this book many problems in our personal professional life will get shorted out.CheersKrishna1 of 1 people

found the following review helpful. Great book By DK Good and useful content, references and checklists...2 of 3 people found the following review helpful. Excellent guide for first time managers By Amrish Shah I found this book valuable as it is a good reminder for some of the great techniques that I've been following. I was fortunate to implement most of the techniques mentioned in the book first hand and witness the benefits associated with them. Some of my personal favorites are Locus of control, Plan ahead, and Checklist. As a manager, I use this book as a great tool to help my team understand the benefits of following these simple techniques. I also liked the explanation of the New Framework (Dhancha) and ADT. Many times, I've seen some very smart people failing to perform due to lack of this understanding. It is simply the best book I have ever read about helping people build a great career. I would recommend this book to everyone who would like to succeed in their career.

Every year graduating engineers are told that they are destined for success. But what are the habits and behaviours that actually lead to success? In *What I did not learn at IIT*, Rajeev Agarwal, the Founder and CEO of MAQ Software, has distilled decades of life experience into one accessible and informative guide. In simple language, he explains the success techniques he applied and what worked for him. Encouraging graduates to look at their careers over a 40-year span, Rajeev explains that successful people choose to be passionate about every job they have. Using a skillful combination of personal stories and checklists, *What I did not learn at IIT* provides students with a roadmap for success.
