Tunde Zack-Williams : When the State Fails: Studies on Intervention in the Sierra Leone Civil War before purchasing it in order to gage whether or not it would be worth my time, and all praised When the State Fails: Studies on Intervention in the Sierra Leone Civil War:

Compared with Iraq, Afghanistan and Kosovo, the recent western intervention in Sierra Leone has been largely forgotten. *When the State Fails* rectifies this, providing a comprehensive and critical analysis of the intervention. The civil war in Sierra Leone began in 1991 and was declared officially over in 2002 after UK, UN and regional African military intervention. Some claimed it as a case of successful humanitarian intervention. The authors in this collection provide an informed analysis of the impact of the intervention on democracy, development and society in Sierra Leone. The authors take a particularly critical view of the imposition of neoliberalism after the conflict. As NATO intervention in Libya shows the continued use of external force in internal conflicts, *When the State Fails* is a timely book for all students and scholars interested in Africa and the question of humanitarian intervention.

This volume by Sierra Leonean academics offers wide-ranging insights on the causes and dynamics of the Sierra Leone conflict. It provides valuable information on security sector reform and the role of external actors in peace building. -- Yusuf Bangura, United Nations Research Institute for Social Development This work fills a very important niche in our perception of the era of the civil war in Sierra Leone and its aftermath. Policy makers, those interested in development studies and scholars in general should pay keen attention to it. -- Magbaily Fyle, Professor Emeritus, Ohio State University

About the Author Tunde Zack-Williams is Emeritus Professor of Sociology at the University of Central Lancashire. He was President of the UK African Studies Association from 2006 to 2008. He is the author of *Tributors, Supporters and Merchant Capital: Mining and Underdevelopment in Sierra Leone* (1995), *The Quest for Sustainable Peace: The 2007 Sierra Leone Elections* (2008), co-author of *Structural Adjustment: Theory, Practice and Impacts* (2000), co-editor of *Africa in Crisis: New Challenges and Possibilities* (Pluto, 2002) and *African Mosaic: Political, Social, Economic and Technological Development in the New Millennium* (2009). He is a handling editor of *Journal of African Political Economy* and a member of the Africa Panel of the British Academy.
