*White Collar Fraud Investigations* is an authoritative, insiders' perspective on best practices for understanding recent fraud trends and developing a client's defense strategy accordingly. Featuring partners from some of the nation's leading law firms, these experts guide the reader through the most recent white collar fraud cases, discussing the motives behind the incidences and the strategies being employed by the government to enforce crime investigation. Explaining the structure of an investigation and the responsibilities of legal counsel at each stage, the authors discuss their tactics for conducting an internal company review, interacting with investigating government agencies, and negotiating a settlement to avoid prosecution. In addition, these top lawyers examine the potential outcomes a client faces when charged with fraud and emphasize the importance of helping clients develop a robust compliance program as a preventative measure. The different niches represented and the breadth of perspectives presented enable readers to get inside some of the great legal minds of today, as these experienced lawyers offer up their thoughts around the keys to navigating this rapidly changing area of law. *Inside the Minds* provides readers with proven business intelligence from C-Level executives (Chairman, CEO, CFO, CMO, Partner) from the world's most respected companies nationwide, rather than third-party accounts from unknown authors and analysts. Each chapter is comparable to an essay/thought leadership piece and is a future-oriented look at where an industry, profession or topic is headed and the most important issues for the future. Through an exhaustive selection process, each author was hand-picked by the *Inside the Minds* editorial board to author a chapter for this book. Chapters Include: 1. George B.
