**Terry Eagleton : Why Marx Was Right** before purchasing it in order to gage whether or not it would be worth my time, and all praised Why Marx Was Right:

3 of 3 people found the following review helpful. A most necessary and important bookBy PrometheusA most necessary and important book about a most necessary and important man. As always Eagleton is a pleasure to read. Marx's real thought and writings have been so intellectually corrupted by rightwing idiots or left wing idealists it is beyond tragic. Eagleton does a great job at setting the record straight. Although he made a solid case he left a lot of intellectual artillery unused. I'm sure he had his reasons. Somebody should take this book and finish the job with even finer detail.1 of 1 people found the following review helpful. A brilliant polemic. A must read for all revolutionary leftistsBy BrettA brilliant polemic. A must read for all revolutionary leftists, especially Marxists. Every page contains fiery arguments in defense of Marx's philosophy. I cannot recommend it highly enough.Terry Eagleton is a passionate intellectual who writes crystal clear prose, who constructs solid arguments, who sprinkles his wry sense of humor onto

every page, and who is a deeply compassionate human being. 1 of 1 people found the following review helpful. great book! clearly debunks many intentionally planted misconceptions that ...By james sheagreat book! clearly debunks many intentionally planted misconceptions that the john birchers and southern white plantation owners may not want you to know about.

In this combative, controversial book, Terry Eagleton takes issue with the prejudice that Marxism is dead and done with. Taking ten of the most common objections to Marxism that it leads to political tyranny, that it reduces everything to the economic, that it is a form of historical determinism, and so on he demonstrates in each case what a woeful travesty of Marx's own thought these assumptions are. In a world in which capitalism has been shaken to its roots by some major crises, *Why Marx Was Right* is as urgent and timely as it is brave and candid. Written with Eagleton's familiar wit, humor, and clarity, it will attract an audience far beyond the confines of academia.
