Excellent supplement for a review course, however BE CAREFUL about Kindle version (explained below)By Phil GI won't go into major detail, as I believe the review below was excellent. I pretty much agree with all that has been said. I would recommend this as a supplement for your CPA review course (some courses already use it as the primary course material). Using this as your ONLY method of preparation would probably be too overwhelming. By this, I mean 95% of people should NOT only use Wiley to study for the CPA exam, but use something like Yaeger or Roger CPA review to go through the book and highlight the most

tested points. I feel like there are some areas covered in Wiley that Becker does not cover, so this was a solid purchase for me. However, I purchased the Kindle edition. PLEASE READ if you're buying the KINDLE edition: -There are NO PAGE NUMBERS for the Kindle version. So, if you are using Yaeger for example, and the instructor says "Go to page 287", you have NO CLUE where you are supposed to go. You just have to put the lecture on pause and spend a few minutes figuring it out. -This could only be a glitch with Kindle Cloud Reader, but some images did not even load into the book properly. I just see a little icon showing where an image should be. Pretty frustrating! -Some of the text does not line up properly. Mainly this applies to if columns are used. So, if there are any Yes/No multiple choice questions, the criteria column headers do not line up with the answers, so it is hard to choose a correct answer. Basically, I would NOT recommend buying the Kindle version as your only copy of this book. If you want to have an on-the-go copy (in addition to the print version), it's good for that. 's price for the print version is pretty hard to beat. 0 of 0 people found the following review helpful. Five Stars By siisii Useful tool for learning accounting and preparing for CPA exams. 0 of 0 people found the following review helpful. 96 on AUD By S Smith The Wiley books and test banks were much cheaper than other brands and yet I made a 96 on AUD using them. What more can I say?
