Abbas A. Mirza, Nandakumar Ankarath : Wiley International Trends in Financial Reporting under IFRS: Including Comparisons with US GAAP, China GAAP, and India Accounting Standards before purchasing it in order to gage whether or not it would be worth my time, and all praised Wiley International Trends in Financial Reporting under IFRS: Including Comparisons with US GAAP, China GAAP, and India Accounting Standards:

Wiley International Financial Reporting Trends provides copious examples of footnote disclosures and financial

statement formats, carefully culled from the world's leading international companies ("Global 500") that are already compliant with IFRS and report under IFRS standards promulgated by the International Accounting Standards Board, the IASB. Arranged topically, this book is a quick source of reference to find answers to issues of interest to financial statement preparers. It provides hundreds of illustrations taken from financial statements prepared under IFRS by global conglomerates thereby helping preparers and users of financial statements to expeditiously obtain examples of footnote disclosures and financial statements presented under these Standards which are popularly referred to as "principles-based" standards (as opposed to "rules-based" standards). Additionally, Wiley International Financial Reporting Trends contains comparisons of IFRS to US GAAP, Indian GAAP, and Chinese GAAP, making it a truly global reference resource.
