EmbryDan Miller's "Wisdom Meets Passion: When Generations Collide and Collaborate" provides sound advice on how generations can understand and work together to meet goals and have individual satisfaction. He notes that the mythical "American Dream" is different for each generation, and that the generations following the much ballyhooed Baby Boomers find satisfaction

and purpose through passion. That's not to say that the "wisdom" handed down by Baby Boomers of job security, having a mortgage, etc., isn't useful; it's only part of the equation for discovering fulfillment in life. This book offers food for thought in understanding what moves us, especially for Baby Boomers with children. 0 of 0 people found the following review helpful. Thought provoking book on priorities for our new economic paradigm By Gerald S. This work by Miller and Anzaga was a helpful way of thinking about the situation many today find themselves in. I appreciated their challenge of the nature and value of education, as well as the importance of defining one's life mission. Anzaga's insight into how for-profits can make an impact in the developing world was a fresh perspective. This is not a "how to" book (Like Miller's 48 Days to the Work You Love); rather it was more like a primer on gaining perspective on the nature of work and how to align it with ones values. It is a pretty fast read. 0 of 0 people found the following review helpful. Inter-generational advice provides valuable perspective! By John Henry Sheridan Very cool book! Blends insights from both a father and a very different son who have carved their own unique paths through life. They have come together to share their journeys and inspire us readers onto following our dreams and taking the practical actions necessary to make them actually happen.

Today we face a unique dichotomy between the wisdom of the Baby Boomer generation and the passion of Generation Y. According to *Wisdom Meets Passion*, the question is not which is right, but rather how can the two work together? Wisdom, meet passion. Passion, wisdom. By bringing these two voices to the issue, this book takes readers through familiar plights, such as understanding the American Dream, the quest for security, and work that matters—regardless of age. Through candid storytelling, Dan Miller and Jared Angaza uncover various generational approaches to work, money, success, and relationships, proving that it is possible to be both passionate and wise..
