If you're an adult, you'll really love the fresh thinking it will inspire in you, and if you're a kid-to-teen, this is the only book you'll ever need about starting, maintaining and refreshing your business. I actually had the pleasure of speaking to Cameron for an interview and he's an amazing individual. **PARENTS, GET THIS FOR YOUR KIDS!** This will open up their eyes as to the reality of money-making and investing.1 of 1 people found the following review helpful. Inspires creativity!By D. B. MILLER I purchased this book for my daughter who recently graduated from college. I thought that she would enjoy it and learn something from one of her peers. Needless to say, I, too, started reading the book and could not put it down. It is a remarkable book which tells of the many businesses that Cameron started at an early age, and how successful he has become as a result. My daughter has even started to come up with some unique business ideas, she is researching her idea based on several variables. Thanks Cameron for a very informative and inspiring book! Kudos to you for your brilliant mind!0 of 0 people found the following review helpful. Great Inspiration!By Kimberly Quigley SingelThis book was referred to me by a great business man. I bought it for my son who was thinking of ways to fundraise money to attend an educational trip. The book was so helpful in inspiring him that he could earn money even at a young age of 10. This book offers courage, careful planning insights and positive "this can happen to you, too" support. I recommend it to people of all ages as it offers logical steps to take in creating a business plan and follow through. What a motivational story, if a young person can be a millionaire before graduating from high school, than there is hope for all of out there. Buy the book an get ready to be inspired!

Why work for someone else when you can call your own shots, pursue your dreams, and find success on your terms by starting your own business? So many people end up bored with their jobs, stuck in the corporate grind, never following their true passions. As wildly successful young entrepreneur Cameron Johnson shows, you don't have to live that way. We've entered a new age of entrepreneurship, with the Web making it easier than ever to start and run your own company. As Johnson's remarkable story reveals, the entrepreneurial way of life is a great way to make sure you love what you do -- and it offers the potential to achieve extraordinary success by following your gut instincts and going for what you really want. What about the risks? Don't you need lots of money? Don't most start-ups fail? Johnson shares his essential secrets to entrepreneurial success that show you how he got into the life at very low risk, and, with very little money, took an idea that excited him and ran with it, achieving great success and satisfaction with businesses he loved. He didn't have an MBA; he didn't even have a college degree. But he had learned the simple yet vital secrets he reveals. Cameron Johnson is a seriously happy entrepreneur who started his first business when he was nine with \$50 and a home computer. Before he'd turned twenty-one he'd started twelve successful businesses and was offered \$10 million in venture capital to grow his hot Web company CertificateSwap.com -- praised by Entrepreneur magazine as one of the Web businesses helping the tech industry get its groove back -- even bigger. He has never taken out a loan or racked up any debt, and every one of his businesses has been highly profitable -- so profitable that he made his first million before graduating from high school, and he's put away enough cash so that he could retire today. But that's the last thing on earth he'd want to do; he's much too happy starting up new companies. Through the story of his own impressive career so far, in *You Call the Shots*, Johnson takes you behind the scenes of entrepreneurial success and empowers you to hit the ground running with your own great business idea, no matter how young you are or how little money you have to invest.
